

Lifelock's \$1 Million Guarantee

Identity theft is something we all worry about in today's world. Credit cards and debit cards are used by more people than just cash. It is a lot more convenient to use your bank card or a credit card to pay for expenses than it is to constantly keep cash on you. Even if one uses cash all of the time they could still have their identity stolen through other ways such as by someone else using their social security number to get loans, credit cards, and more. The numbers of people buying merchandise and necessities online are increasing every year. It is a great, convenient, and time saving way to buy what you need and shop around without leaving the comfort of your own home.

Identity theft is also increasing. More and more people are finding inaccuracies on their credit report because of thieves stealing their social security number, credit card number, and even their bank account numbers to purchase whatever they want to. This can damage your credit severely, cost you a lot of time trying to fix the problem and clear your name, plus you would be held responsible for paying back the money that the identity theft stole from you. The only way you can avoid having to be responsible for the stolen money (up to a certain amount) if you have the protection from your bank and your credit card companies. You do normally have to pay them a monthly fee to have this protection, and most will only protect you for up to \$1,000 worth of stolen money. The rest is up to you to take care of. This can leave a huge gap on your end where you have to spend a lot of your time and money clearing your name.

Having and maintaining a good credit report is vital for a variety of things. You need to have good credit in order to get a car, obtain a loan, get a checking account, and earn a credit card. Many of these things are necessary in today's world. Without good credit you can't get a home loan, an auto loan, a checking account, etc. It takes a long time to get your credit up from bad to good. It can often (and easily) take several years.

Lifelock is a wonderful solution to all of these problems we all face every day. Any one of us could be affected by identity theft at any moment. When you are under the protection of Lifelock you are truly protected. They give you a one million dollar guarantee. If someone steals your personal information and uses it to their own advantage destroying your credit and costing you money, you will not have to worry about it. You won't have to spend all of that time fixing it and paying money out of your own pocket to repair your name. Lifelock will pay up to 1 million dollars over the life of that one incident and reimburse you for any costs you have to pay associated with your stolen identity. They have the best guarantee and really do protect your identity as if they were in your shoes.
